

Make a sensory gel bag fish aquarium.

1. Fill a zip lock bag with about 1/4 to 1/2 cup of hair gel.
2. Add some food colour to get the bright colours.
3. Add foam fish to bag.
4. Use clear packing tape to seal the top of the bag.
5. To remove the print from the bag, lightly rub the white letters and symbols with a very little nail polish remover and a sponge.
6. Hang your fish bag in the window which makes it tempting to walk by and feel throughout the day.
